- 3-21-75 G. Pabst & R. Corson contacted Mr. Ralph Madden requesting air test on his tanks at the Apco Service Station at Grand & Grant.
- 3-26-75 Ralph Madden called and reported results of the air test on Gas storage tanks at the Apco Station at Grand & Grant. Mr. Madden stated that the results of the test showed that his tanks are not leaking. He will mail us a copy of the results.
- 3-27-75 G. Pabst, R. Lyman, C. Criswell contacted Webster Oil Co., Mr. McDaniel, to request that they air test there gas storage tanks at their Bonanza Service Station at the Corner of Grant & Grand. Mr. McDaniel informed us that he had already air tested his tanks & they do not leak. Mr. McDaniel is in the process of writing, a letter to this office, stating the results of the air test.
- 3-27-75 Contact was made, by G. Pabst & R. Lyman, with the operator of the Service Station on the Northeast Corner of Grant & Grand. The operator of the Service Station informed us that the owner of the service station was Vile Oil Co. in Aurora, Mo.

Dear Mr. Viles:

It is our understanding that you lease the service station on the Northeast corner of Grant and Grand in Springfield. The operator of the station was contacted recently by personnel from this office concerning possible leakage from your storage tanks, and referred us to you. Due to the urgency of the situation and possible health and explosion hazard, this office is requesting that you and/or the owner take immediate steps for pressure testing of your storage tanks. Please send results of this test to my attention or feel free to call me.

If we may be of further assistance or can answer any questions, please don't hesitate to call.

Yours truly,

*We complied with your request
even though we were near positive
we had no leak, now I'm sure
being fair minded & wrong you
would feel you should pay the cost
of the check thank you Viles & Co.*

Re: Pressure test on tank at Grand & Grant

Gentlemen:

As requested by your office, we have pressure tested our tank at the Bonanza station at Grant and Grand. About four p.m., March 25, 1975, we unhooked our equipment and started our test. We checked it at 8 p.m. and again at 8 a.m., the following morning. We used over 5 lbs. pressure and had no drop in pressure in the 16 hours of testing.. We feel certain that these tanks are sound and the gas is not from our system. If there is any way that we can help solve this problem, we will be happy to cooperate in any way we can. Please call me at 883-2663 if I can assist.

Sincerely yours

Sam McDaniel

Dear Mr. Viles:

I know of no legal authority whereby the City could pay your bill in the amount of \$64. Since the City did not contract with Southwest Petroleum and Equipment Company there would be no legal obligation for the City to pay such bill. Contracts with the City must be in writing and duly authorized by the appropriate body. Therefore, we deny your claim.

Yours truly,

Howard C. Wright, Jr.
City Attorney
